ŠKODA

THE NEW ŠKODA FABIA ACCESSORIES

YOUR VEHICLE, YOUR STYLE, YOUR SIGNATURE

The New ŠKODA Fabia is a self-confident car that already provides broad individualisation opportunities for you at the time of purchase. But you can achieve an even greater effect with our range of useful accessories on offer here. Want to highlight the sporty character of the design? Treat yourself to greater comfort? Add the very latest technology? Let your style and practical needs lead the way.

ŠKODA Genuine Accessories and other recommended products offer 100% compatibility with your car, plus a long lifetime and safety. What's more, a customised Fabia is bound to add even more pleasure to your daily drive.

Red & Grey Sports Pack

The pack includes 17" wheels with lightweight red Savio alloy rims, red side mirror covers and red & grey details on the hood, roof and boot door. The range also includes an alternative Black Pack (black rims and side mirror covers, red & grey details). The pack can only be ordered for a new car. ŠKODA AUTO takes care of the professional assembly. ŠKODA Genuine Accessories

* The pack will include a black front grille frame from the 2nd quarter of 2015.

DESIGN & SPORT

Express your individuality to the full. Besides the stylish sports pack, which highlights the dynamic design of the car, you have many other options. For example, original interior decals or leather accessories, plus door sill covers. Not forgetting the attractive light-alloy wheels in 15", 16" or 17" sizes.

LIGHT-ALLOY WHEELS

The light-alloy wheels from ŠKODA Genuine Accessories illustrate the combination of quality, functionality and aesthetics. They undergo the same testing as series production wheels, which ensures their high quality and operational safety.

During the development and testing stage every possible situation that may affect the car is taken into account – no matter how extreme.

Complete wheel covers

This set of high-quality polyester wheel covers, with a maximum diameter of 18" and width of 245mm, enable easy wheel transport and handling thanks to their robust handles. (000 073 900B)

Computer technology, such as in the simulated image of light-alloy wheel testing shown above, is also used to achieve the maximum quality of ŠKODA Genuine Accessories products.

INFOTAINMENT

Your new Fabia gets on well with advanced technologies. So make the best of it! Needless to say, the higher the infotainment system level, the more interesting functions you can enjoy. Do you use a smartphone? Then get interesting car data via SmartGate. Do you go on long trips? The Fatigue Detection Assistant will be a perfect co-driver for you.

Performance

Service

Fatigue Detection Assistant

At speeds from 65 to 200 km per hour, the system evaluates data from the power steering sensors. When it detects behaviour that may indicate fatigue (such as more intensive direction corrections via the steering wheel), it sends an audible and visual signal to the driver, recommending to take a break.

Floor Mats

A car is like a second home. In order to keep its interior cosy and clean, you can protect it using textile or rubber mats. They capture both dirt and moisture, have an anti-slip surface and their shape perfectly fits the space beneath the passengers' feet. While textile floor mats provide comfort for the feet and further

support the later onset of driver fatigue, rubber mats are ideal for use in inclement weather, when excessive dirt can be carried into the car interior on passengers' shoes. The floor mats can be removed at any time, are easy to clean and replace with those more suitable for the current conditions.

Holds and lasts

Did you know that the textile floor mats from ŠKODA Genuine Accessories also undergo the so-called "heel test"? This test simulates the action of the driver's foot on the accelerator, sinking the heel 5 mm into the floor mat in both dry and wet conditions at an angle of 45°. The floor mats also undergo an additional load test in the form of a long driving test, and further focus is placed on the brackets fixing the front floor mats to the car upholstery. The tests are designed to verify the proper clip strengths needed to enable comfortable handling by the driver, while keeping the floor mat in place despite the occasional application of force during the drive.

Testing of fixing element strength

TRANSPORTATION

When you head off on holiday, or set off for a cycling track or a ski run, some things you need simply do not belong inside a car - even if they fit. So transport them on the roof or in a trailer.

Lockable box for skis and snowboards

Capacity of up to 5 pairs of skis or 4 snowboards, volume of 380 litres, successfully passed the City Crash test. Available in three colours. ŠKODA Genuine Accessories

ROOF RACKS, HOLDERS AND BOXES

When you get the basic roof rack from ŠKODA Genuine Accessories, your car will transport almost anything. Other roof systems and carriers can be mounted to the basic roof rack, such as bicycle racks, ski and snowboard racks or boxes, luggage cases, etc.

The basic roof rack dimensions and shape are perfectly compatible with the Fabia model. One hundred percent compatibility of the product with the vehicle eliminates problems with installation or use. You will also avoid potential safety hazards that may occur when using non-genuine accessories.

The racks undergo a number of demanding tests. Their resistance to corrosion, loading capacity, strength and durability are tested in various conditions, as well as the subsequent water tightness of the car after their installation. During the so called City Crash test, a rack loaded with 90 kg must remain on the car body under a force of approximately 12 G lasting for 50 milliseconds (impact simulation).

SAFETY

Do you have small children? Start by selecting a child seat. Do you always want to park confidently and safely? Parking sensors are invaluable assistants. And when the new Fabia attracts unwanted attention, the mechanical transmission locking system will ensure the security of your car, wherever you park.

Rear parking sensors

(6V0 054 630)

CHILD SEATS

Do you want to ensure the maximum safety of your children in the car? The child seats from ŠKODA Genuine Accessories with mounting options for transporting against the direction of travel, comfort and variability, represent the best solution for transporting the smallest passengers.

Practical and variable

The intelligent design of these child seats allows the child to not only be seated in the back, but also on the front passenger's seat where you can see them. The child seats feature variability and numerous setting options to adapt them to the changing size of your children.

Perfectly verified

All child seats from ŠKODA Genuine Accessories comply with European safety regulations (EHK 44.04) and have passed a number of other tests. The high quality and safety of these child seats is demonstrated by their excellent results in the Euro NCAP impact test, together with successful non-combustibility testing, harmful substance ratings and cover quality.

Watch the child seat testing video.

One of the most important goals of ŠKODA AUTO is the development and manufacture of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our ŠKODA cars are produced using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cataphoresis (KTL) and water-soluble paints. Our company strategy includes limiting fuel consumption and emissions. As a result, the engines we offer meet the current emission regulations. All ŠKODA products are made using manufacturing processes that adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, ŠKODA cars meet technical, safety, quality and environmental requirements. ŠKODA AUTO contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses ŠKODA AUTO's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature.
