DISCOVER NEW GROUNDS

The new ŠKODA KODIAQ is a car that will enable you and your loved ones to rediscover the things that are really important and that matter.

The ŠKODA Genuine Accessories product range is based on users' real needs and helps them to customise their car so that it perfectly reflects their needs and wishes.

Whether you opt for design modifications, prefer to make transporting your luggage easier, or place an emphasis on the safety and comfort of your children, ŠKODA Genuine Accessories will always deliver the optimal solution. All products are distinguished by their high quality, borne out by rigorous testing, and full compatibility with the ŠKODA KODIAQ.

DESIGN

Robust and self-assured, the KODIAQ's appearance is a clear sign of how poised the car is to embark on off-road adventure. To enhance your driving experience, we have prepared a range of accessories expanding the car's practicality, and in doing so we have also focused on components to embellish its seductiveness.

INFOTAINMENT

INFOTAINMENT

The ŠKODA KODIAQ's skills stretch far beyond its driveability and competence in transporting passengers and their luggage. Connecting the car to your multimedia devices opens up a completely new world of entertainment, information and communication. With ŠKODA Genuine Accessories you will experience a fully connected life.

CARSTICK

The CarStick can be used to generate an internet connection for mobile online services (ŠKODA Connect). This means that you can use the services without using an internet connection from your smartphone. You can even set up a Wi-Fi hotspot in your vehicle in just a few seconds. Simply insert a suitable SIM card into the CarStick, connect it to the USB slot in front of the gear lever and set up on the Amundsen navigation system. You can then connect any Wi-Fi enabled device to your own on-board network. (000 051 409C)

UPDATE YOUR MAPS AND SOFTWARE

Our goal is to make your life easier and your trips a pleasure. To achieve this, we prepared a new Infotainment Portal for you, using state-of-the-art technologies. Visit <http://infotainment.skoda-auto.com>, enter your vehicle VIN code and see how easy it is. The system recognises which updates you need and offers you the chance to download them comfortably at home. If you buy a new ŠKODA vehicle or navigation system, you get free map updates of your Europe navigation database for three years.

MAP UPDATES

Any road network is subject to ongoing changes, which means you must update the memory of your navigation system. This is the only way to travel securely to your destination every time, find the shortest route and enjoy your trip. For this reason, map updates save you time and money.

COMPATIBILITY LIST

This application will display your external device (smartphone, tablet) compatibility with software functions of the Infotainment system (Bluetooth, SmartLink™ etc.).

SOFTWARE UPDATES

Don't forget to update other software in your Infotainment system.

MY DESTINATIONS

Through the MyDestination App you can set up destinations of your upcoming trip comfortably at home. Then you simply import the list to your navigation device. You no longer have to sit in your car while preparing your route. Controlling the navigation device is easier and more comfortable with this application.

Holds and lasts

Did you know that the textile floor mats from ŠKODA Genuine Accessories also undergo the so-called 'heel test'? This test simulates the action of the driver's foot on the accelerator, sinking the heel 5 mm into the floor mat in both dry and wet conditions at an angle of 45°. The floor mats also undergo an additional load test in the form of a long driving test, and further focus is placed on the brackets fixing the front floor mats to the car upholstery. The tests are designed to verify the proper clip strength needed to enable comfortable handling by the driver, while keeping the floor mat in place despite the occasional application of force during the drive.

Heel test device

Testing of fixing element strength

A young girl with long brown hair in a braid, wearing a green jacket over a red sweater, is smiling and holding a small white rock. She is standing next to a young boy with short brown hair, wearing a dark jacket over a maroon hoodie. They are both focused on building a tall, balanced stack of smooth, light-colored rocks on a sandy beach. The background shows a blurred view of the ocean and some trees. The text "SIMPLY CLEVER" is overlaid in large, white, bold, sans-serif capital letters across the upper middle of the image.

**SIMPLY
CLEVER**

SIMPLY CLEVER

The smart solutions and practical little items are proof that the words “Simply Clever” are no empty marketing slogan. These are features that increase comfort and boost the car’s practicality. The basic thrust, though, remains the same for everyone: to deliver a premium ride and pleasurable use of the car.

TRANSPORT

TRANSPORT

The new KODIAQ's ability to carry cargo around is by no means limited to the capacity of the boot. Bike racks carriers and roof boxes will make it easier to reach your summer and winter destinations. High-quality materials and advanced production technologies facilitate handling and guarantee the long life of all accessories.

Transverse roof rack
ŠKODA Genuine Accessories
(565 071 151)

Transverse roof rack bag
(000 071 156)

Heel test device

The racks undergo a number of demanding tests. Their resistance to corrosion, loading capacity, strength and durability are tested in various conditions, as well as the subsequent water tightness of the car after their installation. During the so called City Crash test, a rack loaded with 90 kg must remain on the car body under a force of approximately 12G lasting for 50 milliseconds (impact simulation).

Do you want to ensure the maximum safety of your children in the car?

The child seats from ŠKODA Genuine Accessories with mounting options for transporting against the direction of travel, comfort and variability, represent the best solution for transporting the smallest passengers.

Practical and variable

The intelligent design of these child seats allows the child to not only be seated in the back, but also on the front passenger's seat where you can see them. The child seats feature variability and numerous setting options to adapt them to the changing size of your children.

Perfectly verified

All child seats from ŠKODA Genuine Accessories comply with European safety regulations (EHK 44.04) and have passed a number of other tests. The high quality and safety of these child seats is demonstrated by their excellent results in the Euro NCAP impact test, together with successful non-combustibility testing, harmful substance ratings and cover quality.

Watch the child seat testing video.

EXPERIENCE

No one's saying you can only
use a child seat in a car.

Remember how we
would pan for gold,
Dad? With this shovel of
yours we'll be done in no
time..."

Take your hobbies
everywhere with you,
there's ample space for
everything.

Where better to test
a plastic boot dish than
in real life?

**“There’s still a long way
ahead of us and a trailer
promising exciting
adventure behind us.”**

“Why don’t we use the tow rope more often, this is so much fun...”

Look at it this way, there's plenty of fun to be had in the back on those long journeys.

The door sill scuff plates are your KODIAQ's welcome mat, even for four-legged passengers.

"I wish we could keep all our stuff everywhere as neatly organised as it is in the boot of a KODIAQ."
